

Information System General Usage Policy

Hierarchy Level: Policy	Document Type: Code	Page: 1 of 7
Owner: Vice President, Corporate Services and Associate General Counsel	Applies to: Devon US	Doc ID: 112845128
Last Revised: 7/25/2024	Review Cycle: Every 1 Year	Implemented: 10/1/2000

1. Purpose

The Information System General Usage Policy ("Policy") establishes appropriate uses of Devon's Information Systems. Devon provides secure Information Systems in accordance with the [Information Security Policy](#). Inappropriate use of Information Systems unnecessarily exposes Devon to increased legal risk, the risk of computer viruses, and other risks that may compromise or adversely affect Devon's network systems and services.

Nothing in this Policy is intended to restrict communications considered to be protected and concerted activity by the National Labor Relations Board.

2. Applicability

This Policy applies to all US employees and to all equipment owned or leased by Devon (irrespective of location). In addition, prior to granting any contractor or consultant access to Devon's Information Systems, the contractor or consultant must have previously entered into an approved contractual agreement with Devon.

3. Company Assistance/Exceptions

To displace any uncertainty or doubt regarding the proper use of Devon's Information Systems, employees should freely consult with their manager. In certain instances, it may be necessary for the manager to discuss a particular situation with senior management of Technology or with Devon's Executive Vice President and General Counsel.

When applying this Policy, it is important to note that certain activities or assignments within Devon require specific employees to perform tasks that may, at times, be partially or wholly contrary to certain provisions of this Policy. In those instances, employees are required to exercise sound judgment, utilize appropriate security measures where available, and adhere to other applicable policies. At the conclusion of the aforementioned activities or assignments the general application of this Policy will apply.

4. Policy Statement

In the course of employment with Devon, employees will have access to Devon Information Systems. Employees and contractors should use Devon's Information Systems for communication of Devon business information. Information Systems, including all messages and data transmitted, received or stored, are the property of Devon. Effective information management and security is a team effort and involves the participation and support of every person who deals with Devon's information and Information Systems. It is the obligation of all Information Systems users to review this Policy and conduct

their activities accordingly. All employees and contractors are responsible for ensuring information is protected from unauthorized modification, destruction, or disclosure, whether accidental or intentional.

4.1 General Information on System Use

All Information Systems, including computer equipment and Internet access, have been provided by Devon for business use. All use of Devon's Information Systems must comply with Devon's [Code of Business Conduct and Ethics](#) and other applicable policies.

Employees and contractors may use Devon's equipment for limited personal use. However, the use of Information Systems for charitable activities, political endeavors, private business purposes, or religious causes is prohibited. The aforementioned restrictions will not apply to any Devon sponsored political action committee or any other Devon-approved charitable or political activity or action conducted within the scope of an employee's job.

4.2 Unacceptable Use – System and Network Activities

The following activities are prohibited:

- 4.2.1** Uploading, posting, or otherwise distributing or facilitating distribution of any content, including text, communications, software, images, sounds, data, or other information that is unlawful, threatening, abusive, harassing, defamatory, libelous, deceptive, fraudulent, tortious, or invasive of another's privacy. Content that contains nude, explicit, or graphic images, descriptions or accounts of sexual acts (including sexual language of a violent or threatening nature directed at another individual or group of individuals), or that otherwise violates Devon's Code of Business Conduct and Ethics or other Devon corporate policies is prohibited.
- 4.2.2** Exporting software, technical information, encryption software, or technology in violation of international or regional export control laws. Appropriate management should be consulted prior to the export of any material that is in question.
- 4.2.3** Deliberate introduction of malicious programs into Devon's network or servers (e.g., viruses, worms, Trojan horses, e-mail bombs, etc.).
- 4.2.4** Attempting to "hack," "break-in," social engineer, or modify the security of Information Systems.
- 4.2.5** Making fraudulent offers of products, items, or services originating from any Devon account.
- 4.2.6** Making statements about warranty express or implied.
- 4.2.7** Effecting security breaches or disruptions of network communication. Examples include, but are not limited to, accessing data the employee or contractor is not intended to receive, logging into a server or account the employee or contractor is not expressly authorized to access, and/or engaging any type of denial of service (DoS) or malicious activity, or other similar actions.

Information System General Usage Policy

Hierarchy Level: Policy	Document Type: Code	Page: 3 of 7
Owner: Vice President, Corporate Services and Associate General Counsel	Applies to: Devon US	Doc ID: 112845128
Last Revised: 7/25/2024	Review Cycle: Every 1 Year	Implemented: 10/1/2000

- 4.2.8 Port scanning or any type of network security scanning without prior notification to and approval from IT Security.
- 4.2.9 Executing any form of network monitoring that will intercept data not intended for a specific machine, device, or account.
- 4.2.10 Circumventing user authentication or security of any host, network, or account.
- 4.2.11 Sharing or utilizing the account credentials of another person.
- 4.2.12 Adding, removing, or modifying corporate Information Systems without prior consent from the IT Department.

4.3 Unacceptable Use – Messaging and Communication Activities

The following activities are prohibited:

- 4.3.1 Sending or distributing unsolicited messages, including junk mail or other advertising material, to individuals who did not specifically request such material (e-mail "spam").
- 4.3.2 Any form of harassment via e-mail, telephone, messaging, or other electronic medium, whether through language, frequency, or size of messages.
- 4.3.3 Unauthorized use or forging of e-mail header information.
- 4.3.4 Distributing or possessing inappropriate material including, but not limited to, any nude, pornographic, racist, hate crime, or violent written or visual content.
- 4.3.5 Distributing messages disruptive to normal business operations.
- 4.3.6 Knowingly sending or distributing messages that contain a computer virus or malicious software.
- 4.3.7 Forwarding or blind copying messages marked confidential, privileged, or proprietary, without obtaining permission of the sender or authorized manager.
- 4.3.8 Creating or forwarding chain letters, Ponzi, or other pyramid schemes of any type.
- 4.3.9 Intentional deletion of messages or attachments with a retention classification or subject to a legal hold as defined in Devon's Management of Records (MoR) Policy or via instructions from the Legal Department.
- 4.3.10 Sending messages that relate or pertain to the potential liability of Devon by e-mail or transmitting them over the Internet/intranet unless transmitted securely to ensure the integrity, confidentiality, and privileged contents of the message. Such matters may include, but are not limited to, environmental issues, pending or potential litigation, or employee personal information.

Last Revised: 7/25/2024	Review Cycle: Every 1 Year	Implemented: 10/1/2000

4.4 Use of Devon Company E-mail Address

Employees and contractors may not use their Devon e-mail address to sign-up for services that do not have a legitimate business purpose and prior approval has not been provided.

4.5 Password Sharing and Disclosure

Employees and contractors must not disclose their password(s) to any person at any time, except as may be permitted by this Policy.

4.6 Instant Messaging and Chat, Peer-2-Peer Communications

Only instant messenger applications approved by Devon’s Technology Department prior to the application’s use and installation are permitted. Chatroom and Peer-to-Peer technologies are not permitted.

4.7 Audio/Video Streaming

Non-business-related audio/video streaming is discouraged. If there are specific requirements for non-business related audio streaming please contact IT Services at digitalsecurity@dvn.com to discuss the requirements further.

4.8 Personal Information System Equipment

Devon information should not be stored on personal information system equipment and/or cloud computing services (e.g., Google Drive, Dropbox, or non-Devon networks) unless prior approval is explicitly received. Personal information systems containing Devon information are subject to review by Devon and the information therein may be reviewed or provided to third parties pursuant to claims, litigation, investigations, or similar actions.

4.9 Personal Use of computing Devices

The use of personal devices must comply with Company policy and security controls and may subject the personal device to a search of both Company and personal information as part of the legal discovery process. Devon processes and security controls may change at any point in time due to evolving changes in technology and risk management practices Devon employs.

4.10 Distribution of Company (Physical & Electronic) Data

Sending or distributing Devon sensitive, financial, or employee/contractor data to any location for personal consumption or use is prohibited. Company sensitive, confidential or proprietary data, trade secrets, employee personal information, or financial data may not be distributed to employees or third parties that do not have a legitimate business need to know. Information relating to environmental issues, reserve or financial data, and pending or potential litigation are examples of data covered by this prohibition.

4.10.1 Employees are prohibited from utilizing online platforms to host or process Devon data, including publicly accessible as well as internally developed or deployed generative Artificial Intelligence (GAI) platforms, unless such use is authorized by the Company. When using Devon data or tools:

- Refrain from inputting any personally identifiable information, confidential, proprietary, or trade secret data related to Devon’s operations or personnel.
- Refrain from entering intellectual property or other potentially sensitive, protected, or regulated data.
- Unless explicitly approved (in writing) as required by the Company, refrain from recording, transcribing, or utilizing GAI functionality to summarize meeting dialogue, content, or notes.
- If external tools offer the option to disable history information, it is recommended to do so.
- Monitor outputs or other end products generated by online tools/platforms, as they may contain factual errors, biased information, or inappropriate statements.
- Verify accuracy or reported facts with other trusted sources.
- Employees are prohibited from using AI Tools to:
 - Conduct or solicit illegal activities.
 - Infringe the rights of others, including privacy and intellectual property rights.
 - Interfere with the performance of their jobs or of other employees’ jobs.

4.11 Licenses and Copyrights

All employees must adhere to software license agreements. All hardware and software products (including any electronic devices being integrated with corporate hardware) must be approved by Devon’s Technology Department. The Technology Department reserves the right to uninstall and/or remove any unapproved hardware or software from Devon Energy equipment or the network without the consent of the employee. Violation of any person’s or company’s rights protected by intellectual property laws, such as copyright, trade secret, patent, or other similar laws or regulations is strictly prohibited.

4.12 Ownership of Information

All information used to conduct Devon business is the property of Devon and subject to this Policy. Ownership of the information means such information may be monitored, audited, reviewed, or provided to third parties or to the government by Devon. This could include information, software, or any other intellectual property created by an employee’s or contractor’s personal use of Devon equipment.

4.13 Expectation of Privacy

There is no expectation of privacy on Devon Information Systems. Private passwords do not guarantee confidentiality. The use of passwords for the purpose of gaining access to Information Systems is done

PROPRIETARY INFORMATION

This document is controlled and updated electronically on Policy Center. Printed copies of this document may be outdated and document users are responsible for ensuring that they review the most recent document version.

Information System General Usage Policy

Hierarchy Level: Policy	Document Type: Code	Page: 6 of 7
Owner: Vice President, Corporate Services and Associate General Counsel	Applies to: Devon US	Doc ID: 112845128
Last Revised: 7/25/2024	Review Cycle: Every 1 Year	Implemented: 10/1/2000

for the protection of Devon, not the employees. All communications and files are subject to monitoring by Devon whenever, in Devon’s sole discretion, there is a business need to do so or in the course of periodic routine monitoring efforts. Devon reserves the right to audit any employee’s activity on the network, including e-mail and Internet use, at any time without the consent of the employee.

4.14 Payment Card Industry Data Security Standard (PCI DSS) Compliance

Compliance with the PCI DSS is required of all Devon employees, contractors, and departments that accept, process, transmit, or store payment credit cardholder information. Only Devon employees who are properly trained may accept and/or access cardholder information, devices, or systems which store or access cardholder information. Only PCI DSS compliant equipment, systems, and methods may be utilized to process, transmit, and/or store cardholder information. Each Devon employee who has access to cardholder information is responsible for protecting that information in accordance with the PCI DSS and Devon policy and procedures ([PCI DSS Procedures](#)). The events and circumstances of a suspected security breach which could negatively affect cardholder information or Devon’s compliance with the PCI DSS must be immediately reported to IT Information Assurance. Vendors and service providers operating on Devon property who accept credit cards must execute a contract addendum that ensures their compliance with the PCI DSS. Non-Devon employees who act on Devon’s behalf must also comply with the PCI DSS.

4.15 Cloud Computing Services

In order to ensure the ownership and protection of Devon’s intellectual property, employees and departments that consider utilizing any cloud-based solution must work with Devon’s Legal and Technology Departments to establish a contract that adheres to a well-defined risk assessment model prior to using any cloud-based solution. The risk assessment model will take into account local, state, and federal regulations and laws in addition to providing a framework employees and departments can reference when going through the process of selecting a cloud based solution (e.g., taking into account data privacy, data security (both physical and electronic), contract termination, intellectual property protection, and infrastructure considerations).

4.16 Reporting of IT Security Matters

Employees or contractors who receive unusual messages and/or encounter IT security issues or other concerns pertaining to Information Systems should report these to the **Technology Service Center:** Oklahoma City - 405.228.8300.

4.17 Legal Issues

Under no circumstances are employees or contractors authorized to engage in any activity that is illegal under local, state, provincial, federal, or international law while utilizing Devon resources. Employees and contractors who are uncertain as to whether an activity is unlawful should consult Devon’s Executive Vice President and General Counsel’s office.

PROPRIETARY INFORMATION

Information System General Usage Policy

Hierarchy Level: Policy	Document Type: Code	Page: 7 of 7
Owner: Vice President, Corporate Services and Associate General Counsel	Applies to: Devon US	Doc ID: 112845128
Last Revised: 7/25/2024	Review Cycle: Every 1 Year	Implemented: 10/1/2000

Additionally, in the event any portion of this Policy is inconsistent with any applicable local law or regulation, the inconsistent provision will be deemed void and the balance of the Policy will be modified to accommodate the deleted provision(s).

5. Consequences of Violation of Policy

Any violation of this Policy may result in disciplinary action, up to and including termination of employment.

6. Other Considerations

This policy will be reviewed annually.

7. Definitions

Devon/Company	Devon Energy Corporation and each of its direct or indirect wholly-owned subsidiaries
Including	As well as any form of the term will not be limiting or exclusive
Information Systems	Includes, among other things, Devon’s computers, systems, network and Internet equipment, software, data, telephones, mobile devices, voice mail, cloud service providers, and facsimile machines.
Payment Card Industry Data Security Standard	The security standard established by the banking industry for the protection of credit card data.
Records	Records are created, received, and maintained by an organization in the course of business. Records support business decisions, litigation, government, and regulatory reporting. Records may be stored on any electronic or non-electronic media (e.g., paper, video and/or audio tape, film, microfilm or microfiche, hard drive, disk, or other electronic storage device) and may be in any format (e.g., books, forms, memos, spreadsheets, e-mail, or drawings).
